PROFESSIONAL SUMMARY

Frontend Developer focused on building responsive, accessible and business-oriented web interfaces with React, Next.js App Router, TypeScript and Tailwind CSS. Hands-on experience with production-style projects involving authentication, protected routes, REST API integration, forms, file uploads, data persistence, email automation, SEO metadata and modern deployments. Strong operational background as a lifeguard, bringing clear communication, responsibility and decision-making under pressure to software teams.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, TypeScript, React, Next.js App Router

UI and styling: Tailwind CSS v4, Responsive Design, Bootstrap, SCSS/Sass, CSS Modules

Integrations: Supabase, Firebase, REST APIs, Resend, Google Sheets automation, localStorage

Tools: Git, GitHub, Vercel, Netlify, GitHub Pages, npm, Jira, VS Code, DevTools

Best practices: Component architecture, accessibility, semantic HTML, basic SEO, Open Graph, protected routes, forms

Languages: Spanish native, English professional working proficiency

PROJECT EXPERIENCE

Estudio Juridico Lachat - Frontend Developer - Freelance Project | *Next.js, TypeScript, Tailwind CSS v4, Supabase, Resend, Vercel*

- Migrated and developed a professional law firm website with responsive UI, custom domain, SEO metadata, Open Graph previews and reusable component structure.
- Implemented a consultation flow with form validation, file uploads, Supabase data persistence, email notifications and automated lead logging.
